

Subject Index to Volume 217 (January-June 1993)

A

- Abdomen
 - antibiotics in serious infections, 115
 - computed tomography of trauma in children, 272
 - endoscopic procedures. *See* Endoscopic therapy; Laparoscopy
 - staged celiotomy in trauma, 576
- Amino acids
 - forearm efflux in TPN affected by growth hormone after abdominal surgery, 413
 - small intestinal transport in TPN, 604
- cAMP in urine, intraoperative monitoring in primary hyperparathyroidism, 587
- Ampicillin-sulbactam in serious abdominal infections, 115
- Anemia in burns, 293
- Angiography
 - carbon dioxide gas as arterial contrast agent, 688
 - completion imaging after carotid endarterectomy, 682
- Animal studies
 - allograft tolerance with intrathymic alloantigen injections, 492
 - arginine supplements affecting survival in sepsis, 644
 - bacterial translocation during TPN plus morphine, 286
 - bile secretion after liver transplantation, 404
 - bioartificial liver, 502
 - colectomy and endorectal pullthrough affecting bile acid profile, 321
 - elemental diet-induced bacterial translocation, 634
 - glutamine metabolism affecting tumor growth, 655
 - laparoscopically harvested omental free flap, 542
 - meal-induced jejunal absorption, 57
 - ontogeny of scar formation in fetal wounds, 391
 - pulmonary endothelial ATP depletion in intestinal ischemia-reperfusion injury, 48
 - tumor necrosis factor-induced mortality reversed with cyclooxygenase inhibition, 668
 - water-soluble ethylhydroxyethyl cellulose affecting bacterial translocation, 155
- Antibiotics in serious abdominal infections, 115
- Aortic aneurysms
 - abdominal
 - graft complications in, 729
 - and surgery in octogenarians, 721
 - ascending, tube graft replacement in, 711
- Appendix, carcinoid tumors of, 385
- Arachidonate metabolism, tumor necrosis factor affecting, 668
- Arginine, dietary, and survival in sepsis, 644
- ATP depletion, pulmonary endothelial, in intestinal ischemia-reperfusion injury, 48
- Axonal necrosis in continent ileal pouches, 260

B

- Bacterial translocation
 - elemental diet-induced, 634
 - morphine affecting, during total parenteral nutrition, 286
 - water-soluble ethylhydroxyethyl cellulose affecting, 155
- Barrett's esophagus in children, 676
- Bile
 - acid profile affected by colectomy and endorectal pullthrough, 321
 - secretion after liver transplantation, 404
- Biliary tract
 - benign biliary strictures, 237
 - ileal pouch-anal anastomosis in colitis with primary sclerosing cholangitis, 311, 314
 - laparoscopic cholecystectomy in acute cholecystitis, 233
 - major complications after laparoscopic cholecystectomy, 532
 - resection of hilar cholangiocarcinoma, 20
- Book reviews, 92, 201
- Breast cancer, 205
 - decision-making in early stages, 207
- Burns, erythropoietic response to, 293

C

- Carbon dioxide gas as arterial contrast agent, 688
- Carcinoid tumors of appendix, 385
- Carcinoma. *See* Tumors
- Carotid endarterectomy, completion angiography affecting, 682
- Cefoxitin in serious abdominal infections, 115
- Celiac axis compression, and hepatic ischemia after pancreaticoduodenectomy, 244
- Celiotomy, staged, in trauma, 576
- Children
 - Barrett's esophagus in, 676
 - computed tomography of abdominal trauma in, 272
 - liver transplantation with living related donors, 82
- Cholangiocarcinoma, hilar, resection of, 20
- Cholangitis, primary sclerosing, with colitis, ileal pouch-anal anastomosis in, 311, 314
- Cholecystectomy, laparoscopic
 - in acute cholecystitis, 233
 - major biliary complications from, 532
- Cirrhosis of liver, peptic ulcer surgery in, 338
- Colectomy and endorectal pullthrough affecting bile acid profile, 321
- Colitis, ulcerative
 - and axonal necrosis in continent ileal pouches, 260
 - primary sclerosing cholangitis with, ileal pouch-anal anastomosis in, 311, 314

- Collagen synthesis in skin during wound healing, 397
- Colorectal cancer, and endorectal ultrasound in preoperative radiotherapy, 64
- Computed tomography
 - in children with abdominal trauma, 272
 - in preoperative assessment in liver tumors, 226
- Crohn's disease, axonal necrosis in, 260
- Cyclooxygenase inhibitors, and reversal of tumor necrosis factor-induced mortality, 668
- Cysts, pancreatic, fluid analysis in, 41

D

- Dextran 60 in acute pancreatitis, 369

E

- Editorials, 1, 99, 205, 311
- Eicosanoid synthesis from tumor necrosis factor, inhibited by ibuprofen, 668
- Endoscopic therapy. *See also* Laparoscopy; Thoracoscopic surgery
 - in percutaneous gastrostomy placement, 168
 - in stenting of benign biliary strictures, 237
- Endothelial cells, pulmonary, ATP depletion in intestinal ischemia-reperfusion injury, 48
- Endotoxin core glycolipid in sepsis, antibodies to, 300
- Erratum, 309
- Erythropoietin levels after burns, 293
- Esophagitis, reflux, Nissen fundoplication in, 329
- Esophagus
 - Barrett's, in children, 676
 - motility monitoring, ambulatory, 128
- Ethylhydroxyethyl cellulose, water-soluble, affecting bacterial translocation, 155

F

- Fat emulsions, medium-chain and long-chain triglycerides in, 175
- Fetal wounds, ontogeny of scar formation in, 391
- Fluid replacement in acute pancreatitis, isovolemic hemodilution in, 369

G

- Gallbladder, laparoscopic cholecystectomy of
 - in acute cholecystitis, 233
 - with major biliary complications, 532
- Gastric acid secretion after parietal cell vagotomy, 253
- Gastrointestinal tract
 - axonal necrosis in continent ileal pouches, 260
 - bacterial translocation. *See* Bacterial translocation
 - Barrett's esophagus in children, 676
 - early gastric cancer, 347
 - esophageal motility monitoring, ambulatory, 128
 - familial adenomatous polyposis

- impact on several organs, 101
- management of, 99
- ileal pouch-anal anastomosis in colitis with primary sclerosing cholangitis, 311, 314
- meal-induced jejunal absorption, 57
- Murphy's button for intestinal anastomosis, 78
- Nissen fundoplication in reflux esophagitis, 329
- peptic ulcer disease. *See* Ulcers, peptic
- percutaneous endoscopic gastrostomy, 168
- postoperative effects of TPN and growth hormone, 413
- serum transferrin as predictor of spontaneous closure in gastointestinal cutaneous fistulas, 615
- small intestinal amino acid and glucose transport in TPN, 604
- Gastrostomy, percutaneous endoscopic, 168
- Glucagon levels, portosystemic shunts affecting, 248
- Glucose, small intestinal transport in TPN, 604
- Glutamine metabolism in muscle and kidney affecting tumor growth, 655
- Growth hormone affecting forearm amino acid efflux in TPN after abdominal surgery, 413

H

- Heart transplantation success with marginally acceptable organs, 518
- Hemodilution, isovolemic, in acute pancreatitis, 369
- Hepatitis C virus antibodies in renal allograft recipients, 512
- HLA, soluble class I in serum of transplant recipients, 485
- Hyaluronidase activity in laser and scalpel wounds, 196
- Hyperparathyroidism, primary, intraoperative urinary cAMP monitoring in, 587
- Hypertension, portal
 - management of, 35
 - portosystemic shunts affecting prostacyclin and glucagon levels in, 248

I

- Ibuprofen, and reversal of tumor necrosis factor-induced mortality, 668
- Ileal pouch
 - with anal anastomosis, in colitis with primary sclerosing cholangitis, 311, 314
 - continent, axonal necrosis in, 260
- Infection
 - abdominal, antibiotics in, 115
 - in abdominal aortic grafts, 729
 - antibodies to endotoxin core glycolipid in sepsis, 300
 - bacterial translocation during TPN plus morphine, 286
 - dietary arginine affecting survival in, 644
 - elemental diet-induced bacterial translocation, 634
 - halophilic marine *Vibrio* bacteria in, 525
 - host defenses in pus of abscesses, 624
 - streptococcal toxic shock-like syndrome, 109
 - water-soluble ethylhydroxyethyl cellulose affecting bacterial translocation, 155
- Ischemia
 - in acute pancreatitis, isovolemic hemodilution in, 369
 - hepatic, after pancreaticoduodenectomy, 244

and pulmonary endothelial ATP depletion in intestinal reperfusion injury, 48

K

Kidneys

glutamine metabolism affecting tumor growth, 655
transplantation of
 mycophenolate mofetil affecting, 476
 risk of liver disease in HCV-seropositive recipients, 512

L

Laparoscopic diagnosis in trauma, 557

Laparoscopy, operative

cholecystectomy
 in acute cholecystitis, 233
 with major biliary complications, 532
 in omental free flap harvesting, 542
 in peptic ulcer disease, 548

Laser wounds, hyaluronidase activity in, 196

Letters to the editor, 307

Lipid emulsions, medium-chain and long-chain triglycerides in, 175

Liver

bioartificial, 502
disease risk in HCV-seropositive kidney transplant recipients, 512
ischemia after pancreaticoduodenectomy, 244
multimodality treatment of hepatoma, 149
peptic ulcer surgery in cirrhosis, 338
preoperative assessment in tumors, 226
recurrent hepatocellular carcinoma, 28
resection for hepatocellular carcinoma, 375
resection under total vascular isolation, 15
transplantation of
 bile secretion after, 404
 techniques with living related donors, 82

Lungs

endothelial ATP depletion in intestinal ischemia-reperfusion injury, 48
thoroscopic surgery in diseases, 566
transplantation success with marginally acceptable organs, 518

Lymph node metastasis from soft tissue sarcoma, 72

M

Medical care, and organized medicine in U.S., 423

Melanoma

recurrence after excision, 2
surgical margins for, 1

Morphine, and bacterial translocation during total parenteral nutrition, 286

Mortality

postoperative
 in radical and palliative pancreatic cancer surgery, 356
 in VA and private hospitals, 277

from tumor necrosis factor, reversed with cyclooxygenase inhibition, 668

Murphy's button for intestinal anastomosis, 78

Muscle glutamine metabolism affecting tumor growth, 655

Mycophenolate mofetil affecting renal transplantation, 476

N

Neurotensin, and pancreatic cancer growth, 439

Nissen fundoplication in reflux esophagitis, 329

Nutrition

arginine supplements affecting survival in sepsis, 644
elemental diet-induced bacterial translocation, 634
meal-induced jejunal absorption, 57
medium-chain and long-chain triglycerides in, 175
and percutaneous endoscopic gastrostomy, 168
total parenteral
 affecting surgical outcome, 185
 growth hormone affecting forearm amino acid efflux after abdominal surgery, 413
 morphine affecting bacterial translocation in, 286
 small intestinal amino acid and glucose transport in, 604

O

Omental free flap, laparoscopic harvesting of, 542

P

Pancreas

cancer growth affected by neurotensin, 439
chemical splanchnicectomy in unresectable cancer, 447
cyst fluid analysis, 41
multicentric carcinoma of, point mutations of *Ki-ras* oncogene in, 138
radical and palliative cancer surgery, 356
resection margins in carcinoma of pancreatic head, 144

Pancreaticoduodenectomy

hepatic ischemia after, 244
145 consecutive cases without mortality, 501

Pancreatitis

acute
 isovolemic hemodilution in, 369
 unknown etiology in elderly persons, 469
chronic, early operative pancreatic duct drainage in, 458
Pheochromocytoma management in multiple endocrine neoplasia type 2, 595

Pleural disease, thoroscopic surgery in, 566

Polyposis, familial adenomatous

and axonal necrosis in continent ileal pouches, 260
impact on several organs, 101
management of, 99

Portal hypertension, sinistral, management of, 35

Portosystemic shunts affecting prostacyclin and glucagon levels, 248

Presidential address, Southern Surgical Association, 423

Prostacyclin levels, portosystemic shunts affecting, 248

R

Rectal cancer, and endorectal ultrasound in preoperative radiotherapy, 64

S

Sarcoma of soft tissue, lymph node metastasis from, 72
 Scar formation in fetal wounds, ontogeny of, 391
 Seat belt underuse, cost of, 122
 Shock
 septic, antibodies to endotoxin core glycolipid in, 300
 streptococcal toxic shock-like syndrome, 109
 Shunts, portosystemic, affecting glucagon and prostacyclin levels, 248
 Skin collagen synthesis during wound healing, 397
 Splanchnicectomy, chemical, in unresectable pancreatic cancer, 447
 Stomach
 acid secretion after parietal cell vagotomy, 253
 early cancer of, 347
 Streptococcal toxic shock-like syndrome, 109

T

Thoracoscopic surgery
 in lung and pleura diseases, 566
 vagotomy in peptic ulcer disease, 548
 Toxic shock-like syndrome, streptococcal, 109
 Transferrin in serum, and prediction of spontaneous closure in gastrointestinal cutaneous fistulas, 615
 Transplantation
 allograft tolerance with intrathymic alloantigen injections, 492
 kidney
 mycophenolate mofetil affecting, 476
 risk of liver disease in HCV-seropositive recipients, 512
 liver
 bile secretion after, 404
 techniques with living related donors, 82
 soluble HLA class I in serum of recipients, 485
 success with marginally acceptable thoracic organs, 518
 Trauma
 abdominal, in children, computed tomography in, 272
 and cost of not wearing seat belts, 122
 diagnostic laparoscopy in, 557
 staged celiotomy in, 576
 Tumor necrosis factor, and mortality reversed with cyclooxygenase inhibition, 668
 Tumors
 breast cancer, 205
 carcinoid, of appendix, 385
 chemical splanchnicectomy in unresectable pancreatic cancer, 447
 decision-making in early breast cancer, 207
 early gastric cancer, 347
 endorectal ultrasound in preoperative radiotherapy of rectal cancer, 64
 in familial adenomatous polyposis, 101

growth affected by glutamine metabolism in muscle and kidney, 655
 hepatic resection under total vascular isolation, 15
 hilar cholangiocarcinoma resection, 20
 liver resection for hepatocellular carcinoma, 375
 lymph node metastasis from soft tissue sarcoma, 72
 melanoma recurrence after excision, 2
 multimodality treatment of hepatoma, 149
 neurotensin affecting pancreatic cancer growth, 439
 pancreatic cystic, fluid analysis in, 41
 pheochromocytoma management in multiple endocrine neoplasia type 2, 595
 point mutations of *Ki-ras* oncogene in pancreatic carcinoma, 138
 preoperative assessment in liver tumors, 226
 radical and palliative pancreatic cancer surgery, 356
 recurrent hepatocellular carcinoma, 28
 resection margins in carcinoma of pancreatic head, 144
 surgical margins for melanoma, 1

U

Ulcers, peptic
 endoscopic management of, 548
 randomized selective proximal vagotomy trial in, 6
 recurrence after parietal cell vagotomy, 253
 surgery in liver cirrhosis, 338
 Ultrasonography, endorectal, in preoperative radiotherapy of rectal cancer, 64

V

Vagotomy
 parietal cell, gastric secretion and recurrent ulcers after, 253
 selective proximal, randomized trial of, 6
 thoracoscopic, 548
 Vasculature
 abdominal aortic graft complications, 729
 arterial reconstruction in foot and ankle, 699
 carbon dioxide gas as arterial contrast agent, 688
 celiac axis compression causing hepatic ischemia after pancreaticoduodenectomy, 244
 completion angiography affecting carotid endarterectomy, 682
 pulmonary endothelial ATP depletion in intestinal ischemia-reperfusion injury, 48
 surgery of abdominal aortic aneurysms in octogenarians, 721
 total vascular isolation for liver resection, 15
 tube graft replacement of ascending aorta, 711
 Veterans hospitals, postoperative mortality in, compared to private hospitals, 277
Vibrio bacteria, marine, infections from, 525

W

Wound healing
 fetal, ontogeny of scar formation in, 391
 and hyaluronidase activity in laser and scalpel wounds, 196
 skin collagen synthesis in, 397
